Summary dismissal of suit.

**11.** If upon such examination it appears that there is no substantial cause of action or that the claim is one which from its nature is not a proper subject of litigation in a civil Court, the Court may dismiss the suit.

Issue of summons.

**12.** If upon such examination it is found that the plaintiff sets forth a good cause of action, the Court shall issue a summons to the defendant to appear and answer at a certain place and on a certain day.

*Of the Service of Summons on Defendants.*

How service shall be made.

**13.** Service of the summons shall be made by delivering or tendering a copy thereof under the signature of the Judge and seal of the Court; and when there are more defendants than one, service of the summons shall be made on each defendant.

When there are several defendants.

**14.** Whenever it is practicable, the service shall be on the defendant in person.

When defendant cannot be found, service may be made on a male member of his family.

**15.** When the defendant cannot be found, it may be made on any adult male member of his family residing with him.

In all cases the person served is to be required to endorse the summons.

**16.** In all cases where the summons is served on the defendant personally, or on any person on his behalf, the person on whom the service is made, shall be required to sign an acknowledgment of service, to be endorsed on the original summons, or on a copy thereof under the seal of the Court. If such person refuse to sign the acknowledgment, the service of the summons shall nevertheless be held sufficient, if it be otherwise proved to the satisfaction of the Court.

But service is sufficient without.

If the summons cannot be served, a copy shall be fixed to the door of the dwelling house.

**17.** When the defendant cannot be found, and there is no person on whom the service can be made, the service may be effected by fixing the copy of the summons on the outer door of the house in which the defendant is dwelling, if he is dwelling at any place within the district.

If served, time and manner of service to be endorsed on summons.

**18.** The person serving a summons shall, in all cases in which the summons has been served, endorse on the original summons, or on a copy thereof under the seal of the Court, the time when, and the manner in which, it was served.

When summons is returned unserved, Court to order substituted service, if satisfied that the defendant is avoiding service.

**19.** When a summons is returned to the Court without having been served, if the plaintiff satisfies the Court that there is reasonable ground for believing that the defendant is keeping out of the way for the purpose of avoiding the service of the summons, the Court shall order the summons to be served by fixing up a copy thereof upon some conspicuous place in the Court-house, and also upon the door of the house in which the defendant last resided, if it be known where he last resided; or that the summons shall be served in such other manner as the Court thinks proper. And the service so substituted by order of the Court shall be as effectual as if it had been made in the manner above specified.

When service is substituted, the time for appearance to be fixed.

**20.** Whenever service is substituted by order of the Court by virtue of the power contained in the last preceding section, the Court shall fix such time for the appearance of the defendant as the case may require.

How the summons is to be served when the defendant is resident beyond the limits of the district and has no agent to accept service.

**21.** If the defendant be resident beyond the limits of the District, and have no agent empowered to accept the service, the Court in which the suit is instituted shall transmit the summons, for service to any Court having jurisdiction at the place where the defendant resides, by which it can be most conveniently served.

How the summons is served when the defendant resides out of British India and has no agent to accept service.

**22.** If the defendant be resident out of British India and have no agent empowered to accept the service, the summons shall be addressed to the defendant at the place where he may reside, and forwarded to him by post or otherwise; and if, on the day fixed for the hearing of the suit, or on any day to which the hearing may be adjourned, the defendant does not appear, the plaintiff may apply to the Court, and the Court may direct that the plaintiff shall be at liberty to proceed with his suit in such manner and subject to such conditions as the Court thinks fit.

In case of non-appearance of defendant, Court may direct suit to proceed subject to condition.

In suits for immoveable property, service may in certain cases be made on agent in charge of such property.

**23.** When the suit is for land or other immoveable property, and the summons for any reason cannot be served on the defendant in person, the summons may be served on any agent of the defendant in charge of such property.

*Consequences of Non-appearance of Parties.*

If neither party appear, suit to be dismissed with liberty to the plaintiff to bring a fresh suit.

**24.** If, on the day fixed for the defendant to appear and answer, or any other day subsequent thereto, to which the hearing of the suit may be adjourned, neither party appears when called upon by the Court, the suit shall be dismissed.

Whenever a suit is dismissed under this section, the plaintiff may bring a fresh suit; or, if within the period of thirty days he satisfies the Court that there was a sufficient excuse for his non-appearance, the Court may issue a fresh summons upon the plaint already filed or complaint already recorded.

Or if sufficient excuse for non-appearance, a fresh summons may be issued.

**25.** If the plaintiff appears and the defendant does not appear and it is proved to the satisfaction of the Court that the summons was duly served, the Court shall proceed to hear the suit *ex parte*.

If plaintiff only appears, Court may proceed *ex parte* if due service of summons be proved.

If the defendant appears on any subsequent day to which the hearing of the suit is adjourned, and assigns good cause for his previous non-appearance, he may, upon such terms as the Court may direct as to payment of costs or otherwise, be heard in answer to the suit in like manner as if he had appeared on the day fixed for his appearance.

If defendant appears on day of adjourned hearing, and assign good cause for his previous non-appearance, he may be heard.

**26.** If the plaintiff appears and the defendant does not appear, and it is not proved to the satisfaction of the Court that the summons was duly served in any of the modes of service hereinbefore provided, the Court may direct a second summons to the defendant to be issued in any of the said modes.

If plaintiff only appears and due service of summons be not proved, Court may order issue of second summons.

**27.** If the plaintiff appears and it is proved to the satisfaction of the Court that the summons was served on the defendant, but not in sufficient time to enable him to appear and answer on the day fixed in the summons, the Court shall postpone the hearing of the suit to a future day to be fixed by the Court, and may direct notice of such day to be given to the defendant.

If plaintiff only appears and service of summons be proved, but the service was not in due time, Court may adjourn hearing and direct notice to be given to defendant.

**28.** If the defendant appears and the plaintiff does not appear, the Court shall pass judgment against the plaintiff by default, unless the defendant admits the claim, in which case the Court shall pass judgment against the defendant upon such admission.

If defendant only appears Court to pass judgment by default against plaintiff, unless defendant admit the claim.

When judgment is passed against a plaintiff by default, he shall be precluded from bringing a fresh suit in respect of the same cause of action.

No fresh suit after such judgment.

**29.** If there are two or more plaintiffs, and one or more of them appear and the other or others of them do not appear, the Court may proceed with the suit at the instance of the plaintiff or plaintiffs who appear, in the same way as if all the plaintiffs had appeared, and pass such order as may be just and proper in the circumstances of the case;

Consequence of non-appearance of one or more of several plaintiffs.

and if there are two or more defendants, and one or more of them appear and the other or others of them do not appear, the Court shall proceed with the suit to judgment, and shall at the time of passing judgment give such order, with respect to the defendant or defendants who have not appeared, as is just and proper in the circumstances of the case.

Consequence of non-appearance of one or more of several defendants.

**30.** No appeal shall lie from a judgment passed *ex parte* against a defendant who has not appeared, or from a judgment against a plaintiff by default for non-appearance.

No appeal from judgments passed *ex parte* or by default.

But in all cases in which judgment is passed *ex parte* against a defendant, he may apply, within a reasonable time, not exceeding thirty days after any process for enforcing the judgment has been executed, to the Court by which the judgment was passed, for an order to set it aside; and if it is proved to the satisfaction of the Court that the summons was not duly served, or that the defendant was prevented by any sufficient cause from appearing when the suit was called on for hearing, the Court shall pass an order to set aside the judgment, and shall appoint a day for proceeding with the suit.

When and how judgment *ex parte* against a defendant may be set aside.

In all cases of judgment against a plaintiff by default, he may apply, within thirty days from the date of the judgment, for an order to set it aside; and if it is proved to the satisfaction of the Court that the plaintiff was prevented by any sufficient cause from appearing when the suit was called on for hearing, the Court shall pass an order to set aside the judgment by default and shall appoint a day for proceeding with the suit.

When and how judgment by default against a plaintiff may be set aside.

But no judgment shall be set aside on any such application as aforesaid, unless notice thereof have been served on the opposite party.

2. The following rules for the supply and repair of harness, saddlery, and line gear for batteries of Royal Horse and Field Artillery will take effect from the 1st April 1875.

3. The equipments of the Royal Artillery in India, and materials of all kinds for keeping them in serviceable condition, will be supplied at the expense of the State. Each battery of artillery will indent on the Arsenal on which it is dependent for the supplies necessary to complete its authorized proportion of Ordnance Stores and materials for repair.

4. Indents from batteries in the Bengal Presidency to complete equipment will be prepared in the form and on the dates laid down in G. O. No. 358 of 1870, and those for materials for repair in the form and on the dates given in this order, and from batteries in the Presidencies of Madras and Bombay in the forms and on the dates to be determined on by the Governments of those Presidencies.

5. In the Bengal Presidency all indents, other than emergent, will be forwarded for sanction to the Ordnance Office, Fort William, addressed to the Assistant to the Inspector General of Ordnance and Magazines, whence they will be sent for compliance to the Arsenal on which the battery is dependent.

6. The rules for emergent indents in Bengal are fully detailed in paras. 2834 to 2840, Revised Army Regulations.

Such stores as are authorized by this order to be obtained in the local market, will be purchased by officers commanding batteries, and contingent bills for the cost incurred, supported by the station price current of materials and labor, under the signature of the officer in charge of the principal sudder bazar, will be forwarded to the Examiner, Ordnance Accounts, for adjustment.

These Committees will be assembled in Bengal under the orders of His Excellency the Commander-in-Chief and in Madras and Bombay by direction of the Governments of those Presidencies. All deficiencies of component parts are to be brought to notice, and any and every article of equipment not in serviceable condition, or that requires repair, should be carefully noted and reported on.

The periods during which the various articles of equipment have been in use will be taken into consideration, and the Committee will record their opinion whether they will last the full time of service, or not. In the latter case, the Committee will state the reasons, whether from use or otherwise, which, as far as can be ascertained, will lead to their earlier condemnation. Articles of line gear must be of a suitable description and in serviceable condition.

12. Materials for repair, and surplus stores of a suitable description which are in hand, the property of officers commanding batteries, will be carefully examined, weighed, counted or measured in the presence of the Committee. 13. Stores supplied by the Ordnance Department will be rated by the Examiner, Ordnance Accounts—the actual payments made by officers being refunded for all stores thus obtained which are reported to be serviceable.

16. Materials for the repair and preservation of harness and saddlery sufficient for six months' supply are to be carried in the store wagon.

17. In addition to the materials already detailed, the following will be kept as a reserve to be brought into use only should a sudden emergency arise. The officer commanding the battery will be held responsible that this reserve is always maintained, and that the articles are in good and serviceable condition.

18. With this view, stores should not be allowed to remain in reserve from year to year, as they would in course of time deteriorate; but on receipt of new articles, those longest in possession should be brought into use, and the new stores transferred to the reserve.

*Commanding.*

20. These materials are issued solely for the repair of harness and saddlery, and not for the manufacture of new component portions.

21. Components can be obtained only on indents supported by proceedings of a Special Committee, which should state that repairs cannot be effected, and for what reasons.

22. Should the manufacture of any components be absolutely necessary, the work may be carried out, but a return of such articles made must accompany the half-yearly demand for materials, and the necessity for their manufacture be fully explained. In such cases the damaged articles will be sold by auction, or be returned into store, to the nearest arsenal, under instructions from the Ordnance Office.

23. All repairs to saddlery, harness and saddle-trees are to be carried out by the artificers attached to the battery.

24. The iron work of condemned harness and saddlery is invariably to be returned into store for utilization, as far as possible, in future manufacture, under instructions from the Inspector General of Ordnance.

25. The following stamps will be allowed for marking harness and saddlery :—

Stamps - { iron, for - { iron, $\frac{1}{8}$ inch. / wood or leather, $\frac{3}{16}$ inch. / copper inlaid $\frac{1}{2}$ inch.

29. The following is the list of materials for repair of carriages, wagons, carts, &c., issued with equipment, and such as are expended are to be replaced half-yearly by indent on the Ordnance Department :—

*The 5th March* 1875.

*No.* 1519.—The following Resolution is published for general information:—

Read a letter from the Head Commissioner of the Department of Issue, No. 582, dated 9th October 1874, being a report upon the operations of the Paper Currency Department for the year 1873-74.

---

The average circulation of the Government Paper Currency at the end of each month during the year 1873-74 was £11,145,191, being less by £1,718,846 (15·42 per cent.) than the average of 1872-73 and by £270,533 (2·43 per cent.) than the average of 1871-72, and being more by £1,602,522 (14·38 per cent.) than the average of 1870-71.

| | | |
|---|---|---|
| Average 1870-71 | ... | £ 9,813,222 |
| „ 1871-72 | ... | „ 11,415,744 |
| „ 1872-73 | ... | „ 12,864,037 |
| „ 1873-74 | ... | „ 11,145,191 |

It was observed, in reviewing the operations of the year 1872-73, that the average for the years 1871-72 and 1872-73 was affected by the investment in securities of £2,700,000 of the reserve towards the close of the former of those years.

It is therefore with the year 1870-71, the year before the occurrence of this great disturbing cause, that the advance of the average up to 1873-74 should be measured.

It is, however, more useful and instructive to observe the variations in the minimum amount of the circulation in successive seasons, than yearly averages, and for this purpose to take the calendar rather than the financial year, the period, 31st March, when the financial year closes, occurring in the season January to April, when the circulation is at the lowest.

The lowest amount of the circulation in each of the past 5 years stated in lakhs of rupees has been as follows:—

| | Lakhs. | In the month of |
|---|---|---|
| 1870 | ... 856·9 | ... June. |
| 1871 | ... 1007·3 | ... February. |
| 1872 | ... 1071·8 | ... January. |
| 1873 | ... 1085·6 | ... April. |
| 1874 | ... 920·1 | ... March. |

The above figures afford the means of gauging more accurately the effect on the circulation of the increase in the investment made in January 1872.

In that month, before the investment was made, the circulation amounted to 1071·8 lakhs; the effect of the investment was to raise the circulation to 1308·1 lakhs.

The circulation rose further, and in the month of June 1872 reached the extreme amount of 1350·8 lakhs.

It fell in the following season (April 1873) to a point but 14 lakhs above that at which it stood before the investment.

It may be observed that, between June 1870 and January 1872, before the investment was made, the circulation went up by more than two millions and fell in March 1874 to a point more than 1½ million below the amount at the time immediately before the investment was made.

These fluctuations must be referred to some cause other than the addition to the investment made in January 1872. The efficient cause is to be found in the variations in the amount of the general cash balances of the Government.

The lowest amount of the monthly cash balances in each of the past five years has been as follows:—

| | *Millions.* | |
|---|---|---|
| 1870 | 10·7 | in October. |
| 1871 | 15·2 | in January. |
| 1872 | 16·6 | n October. |
| 1873 | 14·1 | „ |
| 1874 | 11·7 | „ |

It would seem that a variation of three millions in the Treasury balances causes a corresponding variation of about one million in the paper currency circulation.

The fluctuations in the circulation and in the Treasury balances due to season may be observed to occur at different times of the year, the circulation being at its lowest in the early part, the cash balances of the Government being at their lowest in the latter part, of the year.

At the commencement of the year 1873-74 the amount of the circulation was 1113·5 lakhs, it rose to 1208·7 lakhs in the month of September, and stood at 925 lakhs at the close of the year.

The fall of 284 lakhs which occurred in the latter half of the year, so far as it was not due to the ordinary harvest demand for silver, is to be ascribed to the diminution of the cash balances in connection with the efforts of the Government to provide food and employment for the people of the northern and western districts of Bengal threatened with famine from the failure of their ordinary crops.

The largeness of the rice crop of British Burmah, coupled with the increase of price due to the scarcity in Bengal and to the rapidity with which the purchases of the Government at Rangoon were pushed on, necessitated the remittance from India to British Burmah of an unusual amount of specie: the amount of silver coin so remitted was 274 lakhs, namely, 146 on Government and 128 on private account.

The large amount of the Government expenditure in Calcutta and in different parts of Bengal in connection with these operations occasioned a large increase in the local value of money, and attracted silver from Bombay and Madras, which became the cheapest sources of supply. Owing to the peculiar character of the rise in the value of money which was due to a demand for internal consumption, to be met in the main from existing cash accumulations, the ordinary effect in causing a rise in sterling exchange and stimulating the importation of bullion was slow and indirect in operation.

Every effort was at the same time being made to concentrate in Bengal all available cash reserves of the Government, the same being required not only for the direct and indirect expenditure connected with the famine and to provide the means of meeting the possible wants of districts in which distress was anticipated, but also to pay for the unusually large crop of opium then maturing.

It thus occurred that, while in every province, except Burmah and Bengal, a large reduction occurred in the district cash balances, in Bengal they increased by 50 lakhs of rupees, and the note circulation of the Calcutta Circle was reduced by a less amount than that of any other, with the exception of the minor offices of Calicut and Coconada.

The fall in the circulation in the remaining offices between 30th September 1873 and 31st March 1874 was as follows:—

| | Lakhs. |
|---|---|
| Calcutta ... ... | 4·5 |
| Madras ... ... | 45·2 |
| Bombay ... ... | 124·1 |
| Allahabad ... ... | 32·2 |
| Lahore ... ... | 14·4 |
| Nagpore ... ... | 27·5 |
| Kurrachee ... ... | 6·8 |
| Akola ... ... | 25·7 |
| | 280·4 |

Although the circulation of the Calcutta Office was maintained throughout this period, the coin reserves of the Currency Department in Calcutta were heavily drawn upon, and were maintained at no higher amount than was necessary to give full security for the convertibility on demand of the notes in circulation.

This occurred in two ways—*first*, by the continuous issue of notes at Calcutta against payments made (principally in notes) to the office of issue at Bombay; *secondly*, by the issue of notes against silver bullion tendered to the Mint for coinage.

The amount of notes issued against bullion in Calcutta in this period of six months was Rs. 99,12,000; the increase in the amount of bullion held by the Currency Department in Calcutta between 30th September and 31st March was Rs. 44,12,000.

Owing to the very active exertions of the Mint Master in the execution of the coinage thus thrown upon him, the Head Commissioner was able throughout this season to accord to importers the accommodation of receiving for their bullion notes payable on demand so soon as the Mint could receive and assay the bullion, and the Government of India had no occasion to have recourse to the provisions of the laws relating to currency and coinage, which authorise the assignment to mint and bullion certificates of a term of currency sufficient to allow of the conversion of the bullion into coin.

The maintenance of the amount of the Calcutta circulation during this period of pressure was aided by the larger proportion of notes which it was found convenient to hold as part of the district cash balances in Lower Bengal.

This is illustrated by the following statement showing the proportion of Notes and Coin held by Government Treasuries on the 31st March 1874.

| GOVERNMENT AND ADMINISTRATION. | Cash. | Notes. | Amount at disposal of Bank, details not known. |
|---|---|---|---|
| | Rs. | | Rs. |
| Government of India | 1,38,35,457 | 5,12,055 | 81,24,337 |
| Lower Bengal ... | 2,06,62,983 | 50,05,257 | ... |
| N. W. Provinces ... | 1,41,39,618 | 17,27,485 | ... |
| Oudh ... | 37,79,178 | 4,20,270 | ... |
| Punjab ... | 98,11,928 | 6,71,840 | ... |
| Madras ... | 1,98,55,079 | 29,33,925 | 36,64,423 |
| Bombay ... | 1,87,29,634 | 10,29,760 | 75,25,908 |
| Central Provinces ... | 38,62,216 | 3,00,815 | ... |
| British Burmah ... | 48,80,629 | 2,50,625 | ... |
| TOTAL ... | 10,95,56,722 | 1,28,52,032 | 1,93,14,668 |

That this was found convenient is accounted for—first, by the absolutely larger amount of these balances as already noticed; secondly, by the fact that the people of Bengal have been much more accustomed to the use of paper money than those of other parts of India; and thirdly, by the greater efforts of the Accountant General for Bengal to provide notes at District Treasuries for the use of the public.

The following statement shows the value of notes issued in each year from 1862 which were outstanding on the 31st December 1873, compared with the value on 31st December 1872: the values here given include the value of all notes issued by the issue department of each office, although not issued to the public, as well as notes received back from the public, but not yet cancelled:—

| YEAR. | Value outstanding 31st December 1872. | Value outstanding 31st December 1873. |
|---|---|---|
| | Rs. | Rs. |
| 1862 ... ... | 6,35,400 | 5,97,260 |

The following sums have been paid to the public on indemnity bonds for value of wrongly joined and mutilated Notes and half and entire Notes

lost either by accident or in transit through the post :—

| Calcutta ... | 27,250 | 1,020 |
| Madras ... | 7,820 | 460 |
| Bombay ... | 15,810 | ... |
| Allahabad ... | 4,960 | 420 |
| Lahore ... | 6,080 | 1,200 |
| Calicut ... | 1,655 | ... |

The only cases of forgery reported in the course of the year occurred at Bombay. In one instance a forged note for Rs. 1,000 was presented at the Currency Office for payment. In three other cases single forged notes, in two instances for Rs. 100 each and in one case for Rs. 50, were presented at the Currency Office for inspection.

The special attention of the Government of Bombay has been given to the comparative prevalence at Bombay of this form of crime.

The condition of the copper coin circulating in Calcutta having long been unsatisfactory, the Government of India offered in March last an allowance of ½ an anna in the rupee for obliterated pice brought to the Calcutta Currency Office or to the Mint in parcels of not less than Rs. 50 worth.

A large amount of worn coin has been withdrawn from circulation under this arrangement, but the matter belongs rather to the current year.

The agency of the Currency Department has been employed in facilitating the issue to the public of small silver and copper coin. The amount so issued in the course of the year has been as follows :—

| | Rs. |
|---|---|
| Half-Rupees ... | 3,88,329 |
| Quarter-Rupees ... | 5,23,742 |
| One-eighth Rupees ... | 3,29,395 |
| Copper ... | 14,626 |
| TOTAL ... | 12,56,092 |

The amount of coin paid away at the Calcutta Currency Office in the last six months of the year 1873-74, in excess of the amount tendered for notes, was Rs. 3,63,98,445.

| | Rs. |
|---|---|
| This was met by coin received from the Currency Office at Allahabad ... | 1,10,00,000 |
| from Madras ... | 21,00,000 |
| from the Mint .. | 55,00,000 |
| TOTAL ... | 1,86,00,000 |

the remainder being supplied from the coin reserve held at Calcutta at the beginning of this period.

The result of the year's administration of this department is satisfactory, as proving the adequacy of the arrangements for meeting its engagements while continuing, under circumstances of considerable pressure, to issue notes against bullion.

NOTIFICATIONS.—JUDICIAL.

*Fort William, the 12th March* 1875.

*No.* 31 *J.*—IN exercise of the powers conferred on him by Sections 13 and 15 of Act XI. of 1872, and of all other powers enabling him in this behalf, the Governor-General in Council is pleased to make the following rules :—

1. The Political Agent shall not issue a warrant under Section 11 of the Act in any case which is provided for by Treaty, if the Native State expressly desires to abide by the procedure of the Treaty, nor in any case in which application for surrender is made under Section 14 to the Governor-General in Council or any local Government.

2. The Political Agent shall not issue a warrant under Section 11, except on a request preferred to him in writing by, or by the authority of, the person for the time being administering the executive Government of the Native State at which he is the British representative, and on the understanding that the provisions of Act XI. of 1872 and of these rules are to apply to the case.

3. If the accused be a British subject, the Political Agent shall, before issuing such a warrant, consider whether he ought not to certify the case as one for trial in British India; and he shall, instead of issuing a warrant, so certify the case, if he is satisfied that the interests of justice and the convenience of witnesses can be better served by the trial being held in British India than in the Native State.

4. The Political Agent shall in all cases, before issuing a warrant under Section 11, satisfy himself by preliminary enquiry that there is a *primâ facie* case against the accused, and that the charge is not prompted by political motives.

5. If the person surrendered under the warrant of a Political Agent, issued under Section 11, be not a British subject; or if, such person being a British subject, the Courts of the State, either by custom or by the express recognition of the Governor-General in Council, try Native British subjects surrendered to them by extradition: the Political Agent shall make over the accused to be tried by the ordinary Courts of the State in which the offence was committed; provided that the Courts of the State have, by custom or recognition as aforesaid, power to inflict the punishment which may be inflicted under the Indian Penal Code for the offence with which the accused person is charged.

6. If the accused be a British subject, but the Courts of the State do not by custom or recognition as aforesaid try Native British subjects, the Political Agent shall dispose of the case himself.

7. If the punishment which may be awarded under the Indian Penal Code for any offence for which an accused person has been surrendered as above be more than the Courts of the State by custom or recognition as aforesaid inflict, the Political Agent may try the case himself, if he thinks it advisable to do so.

8. Notwithstanding anything in the three preceding Rules, the Political Agent shall try any such case himself or make it over for trial by the ordinary Courts of the State, if he be generally or specially instructed by the Governor-General in Council so to do.

9. In cases made over for trial by the Courts of a Native State under Rules 5 and 7, the Political Agent shall satisfy himself that the accused receives a fair trial, and that the punishment inflicted in the case of his conviction is not excessive or barbarous; and if he is not so satisfied, he shall demand the restoration of the prisoner to his custody pending the orders of Government.

10. A Return of all persons made over for trial by the Courts of a Native State under Rules 5 and 7 shall be submitted half-yearly by the Political Agent to the Government of India or the Government of Madras or Bombay, as the case may be, in the following form :—

*Half-yearly Return, under Rule 9 of the Rules under the Extradition Act (XI.) of 1872, of persons made over by the Political Agent at for trial by the Courts of Native States under Rules 5 and 7, for the period ending*

|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | | | |

11. Persons arrested in British territory on a warrant issued by a Political Agent under Section 11, and persons arrested on a warrant issued under Section 14, shall be treated as far as possible in the same way as persons under trial for a similar offence would be treated under the Code of Criminal Procedure or under the procedure in force in the Presidency towns, if the arrest take place within any Presidency town.

12. Persons sentenced to imprisonment by the Political Agent shall, if British subjects, be conveyed to the most convenient jail in British territory, there to be dealt with as though the conviction had taken place in a Court of British India; provided always that no appeal shall thereby be given other than is allowed by any rule for regulating appeals from the decisions of the Political Agent.

13. Nothing in Rules 5 to 10 inclusive, which refer to cases under Section 13 of the said Act, shall be deemed to apply to Political Agents immediately under the authority of the Governor in Council of the Presidency of Fort St. George or the Governor in Council of the Presidency of Bombay.

## POLICE.

*The 17th March* 1875.

*No.* 58.—The provisions of Act VIII of 1870 (for the prevention of the murder of female infants) having been made applicable to the classes and districts specified in the schedule attached hereto, by the Notifications as recorded opposite those classes and districts, the following Rules made by the Local Government of the North-Western Provinces, for the said classes and districts, in exercise of the power conferred on it by Section 2 of the said Act, and confirmed by the Governor General in Council, are hereby published for general information :—

*Rules for the suppression of Female Infanticide.*

I.—A nominal Register (A) of all proclaimed families shall be drawn up by the Police under the orders of the Magistrate of the district. In this register recognized heads of families or masters of separate households shall be entered as the heads of families, and every member of the family habitually resident in the village shall be entered by name. All persons under twelve shall be entered as children, except married female children living with their husbands, who shall, for the purposes of these Rules, be deemed to be adult females.

II.—All villages in which the proportion of female children to children on a proclaimed population of not less than 25 children, is less than 25 per cent., shall be called "specially guilty" villages, and shall also be entered in a separate Register (B), which shall be called the "Private register of proclaimed families in specially guilty villages." This register shall not be open to inspection except by the officers of the district.

III.—The person who is registered as the head of a proclaimed family shall report immediately the occurrence of every birth and death, and the illness of any female child in his family, to the chaukidar of the village. He shall also produce all children in his family for the inspection of a Police Officer visiting the village when required to produce them.

IV.—Every midwife knowing of, or having reason to believe in, the occurrence in a proclaimed family in the village in which she resides of a birth, or of the illness of a new-born child, shall at once report the fact to the chaukidar of the village. And if the village is one entered in Register B, she shall also report the occurrence of a pregnancy.

V.—If in a given time after proclamation [to be determined for each village or locality by the Local Government] the proportion of female children in a village entered in Register B does not rise to more than 25 per cent., the Lieutenant-Governor may direct that every person registered as the head of a proclaimed family in that village shall be personally bound to report to the officer in charge of the Police Station every pregnancy in his family at some period before the seventh month.

VI.—The chaukidar of the village shall immediately report to the officer in charge of the Police Station the occurrence of a birth, whether male or female, in a proclaimed family; the death of a female infant under six months old; the illness of a female child; and the removal of a pregnant woman to another village. He shall also report, in the occasion of his periodical visit to the Police Station, other deaths, removals, and arrivals; and pregnancies reported to him if the village is entered in Register B.

VII.—The zemindars of the villages shall give assistance to the Police in drawing up Register A, and in obtaining information regarding all births, marriages, and deaths occurring, or about to occur, among proclaimed families.

VIII.—All expenses incurred in working the system sanctioned by Act VIII of 1870 shall be borne by the proclaimed clans and families, and shall be recoverable as arrears of land revenue; provided that, when the percentage of female children to children of any proclaimed class in any village exceeds forty, such class shall be exempted from any share in such expenses, unless in the opinion of the Magistrate there be other grounds of suspicion.

IX.—Where the crime is so prevalent, and the number of the proclaimed villages so great, that the ordinary establishment of the district cannot cope successfully with it, the Local Government may, at its discretion, appoint a force of special Police for the purpose of carrying out measures of prevention and detection. All expenses incurred for the payment of such Police, or under Rule VIII, may be met by a rate leviable, under the orders of the Local Government, from the heads of families entered in the nominal register of proclaimed persons. Such rate will ordinarily be imposed so as to fall more heavily on specially guilty than on guilty families; but the amount of the rate to be levied will be fixed in every case by the special orders of the Local Government.

X.—No proclaimed village or family shall be exempted from the operation of these Rules, except by the order of the Local Government, or in virtue of authority to that effect vested by Government in any officer. A village or family so exempted will then be struck out of Register A., and the erasure initialled by the Magistrate of the District, or by the District Superintendent of Police.

For example—if an Officer applies on the 1st April to retire from the 1st August, his retirement cannot be sanctioned till, on the arrival of the latter date, it is found that the number of retirements allowed has not been completed by retirements from an earlier date.
